

CCSC:MW 2019 ~ Twenty-sixth Annual Midwestern Conference Benedictine University ~ October 4-5, 2019 (Friday-Saturday)

Each year, the CCSC Midwestern Conference convenes to share knowledge and insights through **Papers, Panels, Tutorials, and Workshops**. This year's conference will be held in northeast Illinois at Benedictine University in Lisle, Illinois. Don't miss this opportunity to network with faculty from all over the region!

Continuing this year is the **undergraduate Student Showcase**, an exciting opportunity for your students to show off their best work—including research projects, creative works, multidisciplinary projects, and capstone projects. This joins the annual **programming competition** as one more reason to attend the conference and bring your students along.

Call for participation!
